#### Body:

What's the #1 tool every affiliate marketer needs?

Well...

**According to Robby Blanchard, the #1 ClickBank Affiliate with over \$25 Million in sales, it's a spy tool.**

Why?

Because a spy tool allows you to research the competition and figure out exactly what's working right now.

This way, you can quickly model off them and create your own winning campaign in MINUTES...

...instead of throwing away countless dollars and hours on guesswork.

**So then the question is...which spy tool is the BEST one for affiliate marketers?**

Once again, Robby's got you covered.

Because after YEARS of paying for 3 different spy tools to get just a fraction of the features he wanted...

He decided to take matters into his own hands and CREATE the ultimate spy tool, Spy Hero.

**Here's why Spy Hero is the best spy tool for affiliate marketers:**

- It has the largest ad library with over 500,000 ads tracked and analyzed
- It has a simple, yet powerful search function which lets you break down campaigns by headline, ad copy, creatives, fan pages, and even landing pages
- It includes Facebook, YouTube, Native, and even Ecommerce campaigns

And best of all...

**It's new AI Chat feature guides you from "blank page" to a complete campaign roadmap in just SECONDS!**

You just follow a simple series of prompts and the AI leverages THOUSANDS of successful campaigns to create a winning formula just for you.
